

Liro design line

One design, multiple styles

Liro is the new shelf line from peka. Its design offers scope for creative freedom.

Liro shelves fit with the customer's style as they can be combined with rails for a tailor-made look. Users can choose to pair the shelves with rails made of solid oak, which are the perfect complement to wooden front panels and warm colours, or, alternatively, they can opt for glass, compact laminates, aluminium, or another material. Without rails, Liro shelves ooze calm sophistication. Combined with inserted rails, they create an eye-catching effect as the unit door is opened.

Liro is defined by its clean lines and uncomplicated shape, yet the details of the new design reveal peka's exceptional expertise in metal processing. The shelves are made of top-quality coated sheet steel, folded with millimetre precision: every angle is exactly right. This material, so typical of peka products, allows designs with very thin walls but no compromise on stability. The shelves are easy to clean thanks to their even surface, and they can be recycled as a single material at the end of their life. Liro shelves can also be visually and functionally enhanced with hard-wearing, discreet silicone mats.

Liro is the third shelf line to be developed by peka and will be available for all peka systems. This versatile product will please not only design-conscious kitchen designers and end customers, but also retailers and cabinet makers who want to offer a varied and distinctive range without having to store a lot of different items.

peka – Swiss solutions with a global reputation

Swiss firm peka has been developing and manufacturing pull-outs and complete solutions for the kitchen and furniture industry for over 50 years. Hailing from Mosen, on the shores of Lake Hallwil, the company has grown to become one of the world's top market providers of larder unit pull-outs, slide-out corner systems and user-friendly, ecologically designed waste sorting systems. Numerous internationally recognised patents attest to peka's continuous track record of innovation. peka's product range comprises over 800 items. The company employs around 130 people and distributes its products in over 50 countries worldwide.
