ORGANISATION IS HALF THE BATTLE

HARMONY FOR WELL-BEING

The character of your living space and its furniture is very much influenced by your choice of materials and colours. Simple, elegant storage solutions enable you to organise everything just as you would like it and give each item special added value.

A PLACE FOR EVERYTHING AND EVERYTHING IN ITS PLACE

Dresses, shoes, trousers or accessories – all of your favourite items should be stored carefully and stylishly. Tasteful organisational aids can help you arrange your wardrobe and give you a clear overview of its contents.

YOUR OFFICE CUPBOARD AT A GLANCE

Whether you keep documents, folders, sewing equipment or even just books in your cupboard, you want to be able to find what you need at a glance, and have it within easy reach. These stable, sheet metal pull-out shelves offer a clear overview of every square inch of your cupboard.

You can add in magnetic dividers for enhanced organisation!

LIVING AREA

«My living room is uncluttered, stylish and cosy: My guests like spending time there, and I do too.»

You may think that tidying and relaxing have nothing to do with each other. But everything in our living rooms needs to be displayed or stored somehow: the television, the stereo, wine glasses, tableware, vases, books, tablecloths, toys... And then there is the computer, the printer and the rest of the office equipment (and all the cables!), which need to be tidied away somehow in the home office in the living area.

So it is a good thing that peka has devised a range of practical storage systems and shelves. They make the most of every last nook and cranny and help you find all your items and devices at a glance, leaving you more time to relax.

so the way I store them does too.»

Keep storage space and convenience in mind when you are planning your dressing room or wardrobe. Pull-out shelves give you a clear overview of every last item stored in your wardrobe.

A PERFECT MARRIAGE OF WOOD AND METAL

Warm, natural colours and materials are the latest trend in the furniture world. Wood and metal – for instance, oak and steel – complement one another and make for aesthetically appealing pieces.

The lines between the kitchen and the living area are becoming increasingly blurred, making style, design and functionality more important than ever. When teamed with light wood, anthracite interior fittings made of coated steel project a subtle air of understated elegance.
