

# Smart storage

# Cooking begins with organised units

---

## *ARE YOU PLANNING A NEW KITCHEN?*

Then do it with peka. We will pull out all the stops to ensure that your kitchen not only looks good, but also – and more importantly – makes your work easier and takes some of the stress out of your day-to-day life. From spacious larder unit pullouts and smart corner storage solutions to handy waste systems, peka's ingenious mechanisms and kitchen and furniture fittings will soon have you feeling right at home in your new or renovated kitchen.

So when you are planning your kitchen, take a minute to consider where you can store your groceries, pots and pans, cleaning products, tableware and more so as to make best use of space and always have the items you want on hand when you need them. We can offer a wealth of practical advice to help you create the kitchen you want: a practical kitchen, designed with you in mind.

Customisable

## LIRO DESIGN LINE

Liro shelves fit with the customer's style as they can be combined with rails for a tailor-made look. Users can choose to pair the shelves with rails made of solid oak, which are the perfect complement to wooden front panels and warm colours, or, alternatively, they can opt for glass, compact laminates, aluminium or another material. Without rails, Liro shelves ooze calm sophistication. Combined with inserted rails, they create an eye-catching effect as the unit door is opened.

The shelves have an easy-wipe surface, while the flat, closed shelf base prevents small items, as well as other products kept there, from toppling over. Liro shelves can also be visually and functionally enhanced with hard-wearing, discreet silicone mats. These mats have sound-absorbing properties and, unlike non-slip surfaces, are easy to clean.

### Rail inserts (from L to R)

- No insert
- Natural oak, lacquered
- Stained oak

### Shelf and mechanism:

## LIBELL DESIGN LINE

The Libell design line exudes a sleek elegance, blending seamlessly into any furniture style, whether in the kitchen, living room or wardrobe.

With Libell metal shelves, peka provides an attractive alternative to clip-on shelves/baskets.

Libell clip-on elements are fashioned from a single piece of sheet steel and form a harmonious whole with the fitting.

The rounded design makes use of every last inch of space through to the very outermost edge, while the open corners ensure that cleaning the shelves is a piece of cake.

## SMART USE OF STORAGE SPACE AND SO MUCH MORE BESIDES

Most of us only have limited space available in our kitchens, making it all the more important for us to use our units effectively. Peka pull-out systems are the ideal solution. Not only do they help you use every last inch of the available storage space, they offer a range of other benefits too:

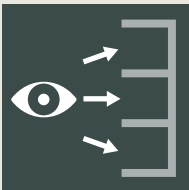

### Direct access

Everything you need within easy reach – all you need to do is open the unit door! Our clearly laid-out systems give you immediate access to every item on every shelf, enabling you to save valuable time when opening or closing your unit and storing or removing items.

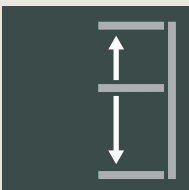

### Excellent use of space

peka storage solutions use every last inch of space inside a unit, from the bottom right to the very top. And since the shelves' walls are so thin, no space is wasted around the sides either.

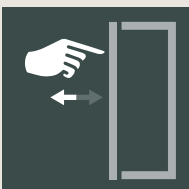

### A clear overview

Having a clear overview of the items stored in your unit saves both time and money: you can find what you need quickly and keep track of your groceries, which helps you avoid unnecessary duplicate purchases and prevent food spoilage. Who knew that reducing food waste in your household could be so easy?

### Flexibility

With our height-adjustable shelves, you can tailor your unit to your needs. You can even add extra shelves if you like!

### Handleless fronts

Most peka products can also be used in units with handleless fronts.

### Easy Reach

Unlike drawer-based solutions, our pull-outs are open at the front, giving you immediate access to the unit's contents when you open the unit door. The perfect solution for people with limited mobility.

# Larder pull-out Pleno Maxi

When the door is opened, the entire contents slide out of the unit automatically and the items are clearly displayed.

The upper section features both door shelves and unit shelving.

## *FEATURES AND BENEFITS*

- + On opening the door, you have a full overview and immediate access to the contents
- + Can be used as a double unit without a partition for centralised food and tableware storage
- + Optimal use of space in all three dimensions
- + Slide-out shelves and a split shelf depth in the top make it easy to reach everything, even in the furthest corners (Plus version)
- + Optional accessories allowing customised use of shelf space

# Larder pull-out Hochschrank Standard

When you open the front pull-out, all the items stored in the unit slide out to where you can see them.

Suitable for all standard widths from 150 mm to 450 mm

Clip-on shelves can be positioned as required

## FEATURES AND BENEFITS

- + Most compact and space-efficient solution for narrow units thanks to thin-walled shelves and full use of unit height
- + A single movement brings the entire contents out in front of the unit
- + Complete overview and easy access, including at the top (above head height)
- + Very easy to open, even when fully loaded
- + Shelves can be easily removed for cleaning and clipped back in place
- + Extra shelves can be retrofitted at any time without tools

## OTHER LARDER UNIT SOLUTIONS

**Shelf set Trio:** Shallow fixed shelves coupled with three door shelves: just open the unit door to reveal Trio's unique, user-friendly layout. The two Extendo shelves at the bottom are extendable.

# Base unit pull-out Pinello

Open the front pull-out for direct access to the full two to four levels of storage space.

**Base unit pull-out Pinello Cargo:** The ‚big daddy‘ of base unit pull-outs boasts an incredible amount of storage space. Full-extension system for 200/300-mm-wide base units.

Base unit pull-out Pinello Board: A baking-tray pull-out that doesn't rattle when opened, as boards and trays remain inside the unit.

## FEATURES AND BENEFITS

- + Complete overview and easy access immediately after opening
- + Maximum use of width thanks to thin-walled shelves
- + Optional extra shelf makes maximum use of height
- + Contents don't slip thanks to removable non-slip silicone mats
- + Closed shelf bases stop bottles from toppling and small items from falling through
- + Optional accessories allowing customised use of shelf space: extra shelf, bottle rack, magnetic dividers, oak railing inserts, push-to-open mechanism

Towel rail extension Pinello Towel: With Pinello Towel, you can hang your towels out of sight to dry. It also offers plenty of storage space for cleaning products and brushes.

**Base unit pull-out Pinello Spice:** The slim base unit pull-out with a surprising amount of storage space. Thanks to its thin-walled metal shelves, it makes maximum use of the 150-mm unit width and offers ample space for bottles and spices.

## OTHER BASE UNIT SOLUTIONS

**Base unit pull-out Snello:** Complete overview and access to the entire unit contents from both sides immediately after opening.

**Towel rail extension Snello:** The right- and left-compatible towel rail pull-out for very narrow base units (150 mm).

**Base unit pull-out Kitchen Tower:** Kitchen Tower automatically glides out of the unit when you open the door, giving you access to your most frequently used items from three sides.

**Bottle partition Spider:** Clip onto the drawer's back wall and position as required – no tools needed

**Internal pull-out Porter:** Place heavy loads on the shelf and push into the unit.

# Drawer system Riverso

System of drawers with overlaid fronts that can be opened from both sides,  
for island units and room dividers

Application: Kitchen islands

Application: Retirement, nursing homes

Application: Canteens, restaurants

Application: Shop counters, points of sale

## FEATURES AND BENEFITS

- + Full access to the entire contents of a drawer from two sides of the unit
- + Allows items to be passed between two rooms via the same drawer
- + Saves time and makes tasks and processes more efficient
- + The product opens the door to innovative solutions to meet specific needs
- + Applications: kitchen islands, shop counters, healthcare settings, room dividers, points of sale, beauty salons, laboratories, and more besides
- + Suitable for custom-made furniture as not limited to specific dimensions or materials

# Pull-out shelf Extendo

The front of the shelf is directly accessible, and the shelf can be pulled out for easy access to the back.

The ideal internal pull-out. Extendo takes up almost no unit space thanks to its thin walls made from extremely sturdy sheet steel.

**Click Stop locking mechanism:** The extended shelf locks automatically. To unlock it, simply pull it out again with one hand and the shelf moves back to its starting position.

## FEATURES AND BENEFITS

- + **Direct access and a great overview of contents**
- + **Can be operated from above thanks to full extension**
- + **Maximum use of space thanks to thin-walled yet extremely sturdy metal shelves**
- + **Almost completely recyclable thanks to the use of sheet steel/wood**
- + **The shelves' sleek design and closed base make them easy to clean**
- + **Simple design to match any style**

## PEKA WASTE SYSTEMS

Waste system Oeko Universal: This matching waste bin set can simply be placed inside an existing drawer pull-out.

Patented holder system: 1-2 waste bags of various sizes (15 to 50 litres) can be clipped into the frame quickly and easily

Waste system Oeko Complet Aqua: The right waste system combined with boiling water tap and water filter systems

Individually selectable combination and arrangement of the buckets, as no bottom tray is required

Waste system Müllboy Big: Müllboy swivels right out of the unit, making it easy to drop in waste from above

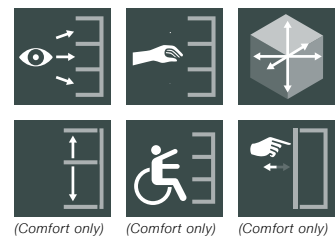

# Corner pull-out Magic Corner

Just open the door and pull on the handle to make the front shelves swing right out of the unit.

Corner pull-out Magic Corner Comfort: The front shelves swivel right out of the unit, softly and smoothly, while the back shelves glide forward and can then be pulled out individually.

Corner pull-out Magic Corner Standard: When the door is opened, the attached shelves swivel out and the back shelves automatically glide forward into the front of the cabinet.

## FEATURES AND BENEFITS

- + Brings items stored in a hard-to-reach corner right out of the unit
- + Two units can be used with a single mechanism
- + Complete overview and easy access from three sides and from above
- + Rectangular shelves for optimal use of storage space
- + Plenty of room, even for bulky objects and heavy appliances

# Wall unit lift Pegasus

Pegasus lowers shelves out of the wall unit to where you can see and reach them and then moves them back again, with a motion support system in both directions.

The lift's built-in brake and soft-swinging mechanism ensure that it moves smoothly and effortlessly.

## *FEATURES AND BENEFITS*

- + **Swings wall-unit shelves down and forward**
- + **Good overview and quick access to the upper part of the unit**
- + **Built-in Softopen and Softclose mechanisms ensure smooth movement**
- + **The base of the unit under the mechanism can be used as normal**
- + **Suitable for barrier-free homes**
- + **Shelves can be easily removed for cleaning and clipped back in place**
- + **Can be retrofitted**

# Smart systems for housekeeping

---

## *SMART ORGANISATIONAL AIDS TO MAKE CLEANING THAT BIT EASIER*

With handy pull-out shelves and trays, you can transform any cupboard into a practical cleaning cupboard. Whether you are looking to store small items like cleaning products, cloths and sponges or larger items like an ironing board, brooms and a vacuum cleaner, we have the right solution for you. Our systems store everything you need where you can see it and reach it easily at all times. After all, as they say, organisation is half the battle. Cleaning is the other half.

Even a cleaning cupboard can be neat  
and attractive!

Sesam Standard cleaning cupboard shelving system and hang storage component Tablo Libell (left):  
For organised storage of cleaning and housekeeping items.

**Hook rail Libell:** This classic rail with six fixed hooks has a wide range of uses throughout the home

**Broom holder Libell:** Suitable for brooms and vacuum cleaner floor nozzles

**Tablo Libell:** A versatile storage unit that can be hung on walls or the inside of a cupboard door

**Dustpan and brush holder:** Can be installed alone or as a handy addition to a cleaning cupboard or waste system

**Stepladder Stepolo:** Sturdy yet elegant design based on anodised aluminium. Stepolo can be folded flat and comes with a mounting bracket allowing it to be stowed away when not in use.

**Recycling station Sesam Bag:** Screwed to the wall, this sheet-steel storage solution allows three full recycling bags to be stowed one on top of the other.

# Organisation is half the battle

---

## *A PLACE FOR EVERYTHING AND EVERYTHING IN ITS PLACE*

Dresses, shoes, trousers or accessories – all of your favourite items should be stored carefully and stylishly. Tasteful organisational aids can help you arrange your wardrobe and give you a clear overview of its contents.

The character of your living space and its furniture is very much influenced by your choice of materials and colours. Simple, elegant storage solutions enable you to organise everything just as you would like it and give each item special added value.

Pull-out shelf Extendo and wooden boxes: Perfect for storing clothes and accessories. The shelves' bases are closed, so delicate fabrics will not catch on them.

Excellent organisation and a clear overview of your whole wardrobe

Trouser rail Lina Standard and Lina Basic (left page): Space for up to 18 pairs of trousers. Makes the most of the available space as the hangers can be positioned individually.

**Shoe shelf for Extendo:** The extra shelf is easy to attach to Libell shelves and can be positioned at three different angles, depending on the shoes being stored.

**Hook rail Libell:** The hook rail is quick and easy to install anywhere in the home – two screws is all it takes. Made from a single piece of sheet steel, the six fixed hooks are extremely sturdy.
