

Trouser rack

Lina

Trouser rack with cleverly-designed hangers for mounting under a shelf

Remove a hanger from the rack, arrange your trousers on the hanger outside the wardrobe and then replace the hanger.

Lina Basic is a winning combination, with its rack for crease-free trousers and its flexible use of hangers. The hangers can be removed from the rack individually, so you can arrange your trousers on the hanger outside the wardrobe without getting them wrinkled. To prepare the attire, the cleverly-designed hangers can even be hung backwards on the front of the shelf. Lina Basic has room for up to 18 pairs of trousers, with custom widths accommodating even more. The profile is easy to mount under a shallow shelf, giving you complete freedom to organise your wardrobe how you want.

Technical data

Design line	Libell
Barrier-free	yes
Unit width (EB)	500/800/1000/400-1290 mm
Colour	white/silver/anthracite

Features and benefits

- Made-to-measure trouser rack using the entire width of the wardrobe
- Cleverly-designed hangers make it easier to hang up trousers
- Makes the most of the available space as the hangers can be positioned individually
- End pieces prevent the hangers from sliding off at either end
