

# Wall unit pull-out Picanto

Wall unit full-extension runner for all applications

**Pull on the front to bring the contents right out of the unit.**

Finally, a well-ordered wall unit! The Picanto full-extension runner saves you having to rummage about among small bottles and packets. With a single movement, you can pull out the entire contents in front of the unit, giving you a full overview and easy access. The three clip-on trays made of impact-resistant polycarbonate can be partitioned off with dividers and positioned at any height. Order is guaranteed! Picanto can be used for all sorts of purposes, including as a bathroom cabinet, a pull-out spice rack or for storing your cleaning equipment.
