

Bottle partition Spider

Bottle partition that can be clipped onto the back wall of a drawer in any position

Clip Spider onto the drawer's back wall – no tools required.

Spider keeps bottles neat and tidy in a base unit and stops them from tipping over. The partition clips onto the back wall of the drawer without the need for tools. You can position it as required, leaving space alongside for pots, pans or other items as you like. Spider can be used with any drawers with a wooden or metal back wall and is the perfect match for our Oeko Universal waste system.

Technical data

Unit width min. (EB)	275 mm
Colour	white/silver/anthracite
Drawer runner nominal length min. (NL)	450 mm
Material	powder-coated sheet steel/plastic
Item no.	200.2780.01 200.2780.12 200.2780.43
