

Waste system

Oeko Complet Aqua G

Waste system with space for boiling water system or water filter

The waste system including a sturdy front pull-out and space for a boiling water system or water filter

Oeko Complet Aqua is designed for easy, hassle-free installation in a 600-mm unit alongside a boiling water system such as Quooker or a conventional water filter. Replacing a CO2 cylinder is also very simple. The patented holder system means that waste bags can be clipped into the frame quickly and easily. The waste system is equipped with strong, stable extension runners. The whole system can be adjusted in height by 30 mm to make optimal use of the space under any sink.

Compatible with: Grohe red, Quooker Combi, Quooker Combi+, Quooker Combi with Cube, Quooker Combi+ with Cube, EVOfilter, AcquaPhi Osmoso Pro, Profine Osmoso Pro, AcquaPhi mineral cartridge, Profine mineral cartridge, AcquaPhi Osmoso Pro with mineral cartridge, Profine Osmoso Pro with mineral cartridge

Type	G
Unit width (EB)	600 mm
Colour	anthracite
Load capacity	0-60/110 kg
Volume	40 l
Interior width (LB)	562-568 mm
Interior depth min. (LT)	495 mm
Interior height min. (LH)	495/465 mm
Height (H)	478/448 mm

Features and benefits

- Leaves space to the side for a boiling water system or a water filter
- Waste bags can be filled to the brim in the 40-litre bin
- Patented holder system: 1-2 waste bags of various sizes (15 to 50 litres) can be clipped into the frame quickly and easily
- Generously sized bins with fixed metal shelf offering extra storage space
- Very sturdy and dirt-resistant metal sliding system with a high load capacity

Technical characteristics

- The system can be fitted on either side and is compatible with all unit heights and depths, ensuring maximum design flexibility
- Can be fitted on right or left
- The water unit is neatly separated from the waste system
- Unit is pre-assembled by peka and runners are easy to fit and remove, allowing for quick on-site installation
- Integrated punching template provides simple, time-saving assembly aid
- Water equipment can be retrofitted easily by third parties
